Education

- **Vellore Institute of Technology** | B. Tech. in Computer Science Engineering — 2021 - 2025
- **Jagdamba Jr. Science College** | Higher Secondary Education | Grade: 93% — 2019 - 2021

Projects

- **VIT Mess** (Android, iOS, Web, Flutter, Dart, JavaScript)**:** [Demo Link](#)
  - **Description:** Developed a cross-platform application and website for VIT University students, enabling real-time search of available mess food items based on the current day and time.
  - **Impact:** Enhanced the dining experience for over 10,000 students by reducing time spent searching for food by 12% and minimizing food wastage by 37%.
  - **Achievements:** Achieved over 4,000 downloads on the Play Store with a 4.8-star rating, and garnered over 3,000 daily website visits.
- **Chess** (Android, iOS, Web, Flutter, Dart)**:** [Demo Link](#)
  - **Description:** Created an innovative cross-platform chess app with integrated AI and multiplayer functionalities.
  - **Impact:** Reached 151 million potential users by contributing to chess education for users of all ages.
  - **Achievements:** Actively engaged with user feedback to enhance app functionality, usability, and overall user experience, resulting in over 1,00,000 downloads and a 4-star rating on the Play Store.
- **CropShop** (Android, iOS, Web, Flutter, Dart, Firebase)**:**
  - **Description:** Designed and implemented the user interface for both user and admin apps using Flutter, integrating Firebase for real-time database and authentication.
  - **Impact:** Streamlined the process for users to purchase and for admins to sell fruits, vegetables, plants, seeds, etc., through a robust admin panel for managing inventory, orders, and user interactions.

Work Experience

ETHNUS — Aug 2023 - Nov 2023

MERN Full Stack Intern

- Engineered robust web applications, significantly enhancing functionality and performance, leading to a 20% increase in user satisfaction.
- Rapidly adapted to evolving project requirements by integrating cutting-edge technologies and innovative concepts, resulting in a 30% boost in overall system efficiency and a 25% decrease in development time.
- Collaborated effectively with cross-functional teams, coordinating efforts across departments to ensure the timely delivery of high-quality projects, which improved project completion rates by 40%.

Oasis Infobyte — Aug 2023

Android Application Developer Intern

- Resolved critical bugs that significantly improved app stability, achieving a 30% reduction in user complaints and enhancing the overall user experience.
- Designed and implemented innovative features, boosting user engagement by 15% and contributing to a more interactive application.
- Pioneered the adoption of advanced Flutter and Android frameworks, streamlining the development process and reducing time-to-market by 25%.

Skills

Languages: Python, Javascript, Dart, Java, SQL

Technologies & Tools: Flutter, Git, Android, Firebase, Rest API, AWS

Awards and Certificates

- **Awards:** Smart India Hackathon Finalists, Hacktoberfest Contributor, GirlScript Summer of Code (GSoC) Contributor
- **Certificates:** AWS Cloud Practitioner, NPTEL Cloud Computing, Industrial IoT Markets and Security - University of Colorado Boulder, Google UX Design, Google Play Store Listing
